

Minitab Workspace® 1.5.3 Desktop Release

August 2026

Resolved Issues

Item 1

A confusing message appears when you try to close an unsaved project that has an open related document. (145069)

Item 2

Double-clicking a project file (QCPX) opens the desktop app but does not display the project contents. (289361)

Item 3

When you export a process map to PDF, some shape text might be cut off, and a vertical white line might appear. (289370)

Item 4

Files created in the Workspace web app can be opened in the Workspace desktop application. (315253)

Item 5

For some Monte Carlo simulations, an error message appears even though the equation is valid. (363738)
